

We welcome new members

Our lab considers new members at all levels on a rolling basis, maintaining roughly “steady state” size as postdocs, Ph.D. students, and undergraduate thesis students move on to next career stages.

Postdoc applicants

Please [email Prof. Jeffrey Macklis](#) a short introduction to your career so far, a short description of your research and career interests and their connection to our lab, your CV, and names of 3-4 references.

Harvard graduate students (PiN, BBS, MCO, Biophysics)

Please [email Prof. Jeffrey Macklis](#) to discuss a potential rotation. Please briefly introduce yourself and your background; attach a CV/resume if available. We welcome rotation students every year.

Harvard undergraduate students

Please [email Prof. Jeffrey Macklis](#) to introduce yourself, your research background (if any; none required), and interests. Please attach a resume/CV if available. We consider students for thesis research in HDRB, Neurobio, MCB, CPB, OEB concentrations (potentially others).

Harvard is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, sex, gender identity, sexual orientation, religion, creed, national origin, ancestry, age, protected veteran status, disability, genetic information, military service, pregnancy and pregnancy-related conditions, or other protected status.
